What is *Smiles For Children*?

Smiles For Children is Virginia's dental program for children on Medicaid, FAMIS, or FAMIS Plus. All of your child's dental services will be provided through the ***Smiles For Children*** program. Your child will receive the same dental benefits they have received in the past with easier access to the dental care your child needs. ***Smiles For Children*** also includes limited adult dental services.

There are no costs for your child's dental care services in the ***Smiles For Children*** program. ***Smiles For Children*** is a program provided by the Commonwealth of Virginia's Department of Medical Assistance Services (DMAS) and is run by DentaQuest.

While your child is eligible for the ***Smiles For Children*** dental plan, you will receive newsletters and other information from time to time. Please read each of them carefully and call us if there is something you do not understand. Often, they will include important facts that will help you take care of your child's teeth. Look for the ***Smiles For Children*** logo on the mailings.

Enrollment

Once your child has been determined eligible for Medicaid, FAMIS or FAMISPlus, they are automatically enrolled in the ***Smiles For Children*** dental program. You do not need to

do anything special to enroll them into the program.

There is no special **Smiles For Children** dental card. You may use either your child's Commonwealth of Virginia plastic ID card or MCO member ID card (AMERIGROUP Health Plan, Anthem HealthKeepers Plus, CareNet Southern Health Services, Optima Family Care, or Virginia Premier Health Plan) for all of your child's dental care.

Smiles For Children will only pay for services while your child is eligible.

REMEMBER, IT IS VERY IMPORTANT to tell your local Department of Social Services right away if you move, change your address or to report any change that affects your child's eligibility. If they do not have a correct address then you will not receive up to date information about your coverage and your child's eligibility will be canceled. If you move or change your address at any time, contact your local Department of Social Services or the FAMIS CPU right away to protect your child and to continue to receive coverage.

If your child's Medicaid, FAMIS or FAMIS Plus enrollment ends, you will receive a letter saying that your child is no longer covered by the **Smiles For Children** dental plan. The date stated on the letter will be the last day that your child will be covered by **Smiles For Children**. The program will not pay for any dental services that your child receives after the end date on the letter. You will have to pay for any services received after the end date on the letter.

Services Covered by Smiles For Children

There are no costs for your child's covered dental care services in the *Smiles For Children* program.

Services for Children

Smiles For Children members are covered for all medically necessary dental services, as well as orthodontic (braces) procedures provided by a participating dentist. Dental services include relief of pain and infection, restoration of teeth, and maintenance of dental health. An oral screening may be part of a physical exam your child gets from the doctor, but it does not take the place of the exam by the dentist. Medicaid recommends that your child's doctor refer your child to a dentist beginning at age three and sooner if necessary.

Routine exams are visits to the dentist for a dental "check-up". The dentist will look in your child's mouth to see if other dental services are needed, and will check to be sure that your child's teeth, gums and the bones supporting the teeth are healthy. Sometimes, the dentist will clean your child's teeth and take x-rays if needed at the same time as the check-up. Dental check-ups are an important part of your child's overall health, and should be done every six months.

Some of the other services that are available to your child include:

- | | |
|------------------------------|------------------------|
| ✓Fluoride (every 6 months) | ✓Crowns (some caps) |
| ✓Sealants | ✓Braces (if qualified) |
| ✓Cleanings (every 6 months) | ✓Root Canal Treatments |
| ✓Space maintainers | ✓X-rays |
| ✓Extractions (tooth pulling) | ✓Fillings |
| ✓Anesthesia | ✓Oral Disease Services |

Your child's dentist will tell you whether or not a service is going to be paid by **Smiles For Children** before they treat your child. Participating dentists cannot bill you for services covered under the program, as long as your child remains eligible.

If you receive services from dental providers who are not enrolled in **Smiles For Children**, you will have to pay the bill. Try to use one dentist for most of your child's dental care, and continue with that dentist unless your child is referred to a specialist.

Adults (members age 21 and over)

Smiles For Children does not pay for dental services for members 21 years of age and older **except** for certain medically necessary oral surgery services when performed by a participating dentist. Examples of medically related covered services for adults include:

- Oral surgery is covered for non-dental surgical or hospital procedures for birth defects (like cleft lip and cleft palate),
- Removal of cysts and tumors not related to the teeth,

- Biopsies for suspected malignancies,
- Repair of traumatic wounds, and
- Extraction of teeth for severe abscesses complicating a medical condition or contributing to poor general health.

Items and services connected with the care, treatment, filling, removal, replacement of teeth, or structures directly supporting the teeth are not covered, except for extraction of teeth prior to radiation therapy.

Most dental services for members 21 years and older must be authorized prior to receiving the service or before the payment can be made. You should have a letter from your medical doctor before you go to the dentist. This letter should tell your dentist why dental treatment is medically needed.

If you need dental services due to one of these conditions, please contact the **Smiles For Children** program at 1-888-912-3456. We can help you find you a dentist who will do an exam and x-rays. The dentist will let you know what steps you need to take to fix the problem and receive the care you need.

Other Services

Medical services will continue to be provided by Medicaid/FAMIS or your MCO. Look at your Medical ID Card for the telephone number to call for assistance.

Transportation may be available to your child's dental appointments if you have no other means of transportation. If you are not in a MCO and you do not have a car or a family member who can transport you to a dental appointment, please call LogistiCare toll-free at 1-866-386-8331 for assistance. You must call at least 48 hours before

the appointment to get transportation. If your situation is urgent because of pain or dental injury, an effort will be made to arrange transportation on shorter notice.

If you are in a MCO, please contact the MCO directly to find out about transportation services. The telephone number for the MCO is listed on the back of your Medical ID card.

Your Dental Home

As a **Smiles For Children** member you should have a Dental Home. A dental home is the dentist office you see regularly every six months. This dentist will provide care for you and always be available.

Your Dental Home will work with you so you can stay healthy. It is important to go back to the same Dental Home for each appointment.

Your Dental Home Will Provide:

Complete dental care

- A dental health plan designed for you
- Guidance about growth and diet
- How to correctly care for your teeth

Healthy teeth and gums are an important part of overall health. For a longer healthier life have regular checkups every six months. Children should see the dentist starting at age one. So don't wait! Call your Dental Home and make an appointment today.

If you have questions about your Dental Home or benefits call toll free 888-912-3456 or visit our website at www.DentaQuest.com

Remember: *Once you choose a Dental Home it is important to keep all your appointments and always arrive on time.*

How to Find a Dentist

Smiles For Children has a list of dentists available to treat your child. You should only visit dental providers enrolled in the **Smiles For Children** program. The names of all dentists and dental specialists in the **Smiles For Children** program are available to you in the Smiles For Children Provider Directory. The Provider Directory is updated from time to time. An updated version of the directory is located on our websites at www.DentaQuest.com or www.dmas.virginia.gov. We can also provide you with an updated version of the directory upon request as well as assistance with any questions regarding the directory through the toll free number.

For additional information on which dentists or dental specialists you can go to, please contact the **Smiles For Children** program at 1-888-912-3456. We can help you find the closest dentist that participates in the program. We will even help you make an appointment with a dentist.

When you call the **Smiles For Children** program, you should have these items ready:

- Pen or Pencil

- Your address including zip code
- Your child’s Commonwealth of Virginia blue and white plastic ID Card or
- Your child’s MCO member ID card

Tell them that your child is a **Smiles For Children** member. You will receive the names of several dentists in your area. Children under the age of 21 do not have to get a referral from your medical doctor (PCP) to go to a dentist. You should have a verbal or written referral from your general dentist to go to a dental specialist.

How to Find a Dentist Using Our Website

Visit our website at www.DentaQuest.com Choose “Find a Dentist” on the top line.

Then follow directions for one of the options below.

1. You may choose to do a quick search by zip code by entering the state you live in, your zip code and the program you are a member of in the top box labeled “Your Information”. This will produce a list of all dentists participating in your program that are accepting new patients within 30 miles based on zip code and criteria chosen. If you would like a list of only general dentists please choose that option under provider specialty.
2. Or you may choose to do a detailed search by entering the state you live in, your zip code and the program you are a member of in the top box labeled “Your Information”. You may then choose other options such as special needs, handicap accessible, accepting new patients, provider specialty and office language spoken.

My DentaQuest Mobile App

DentaQuest has a new convenient way to find a dentist on the go-the My DentaQuest Mobile smartphone app. iPhone and Android smartphone users can download this free app that provides instant access to the DentaQuest provider directory. You can also get important oral health information such as what to do in a dental emergency and how to keep a healthy smile.

To download the app, visit your phone's app store and search the word "DentaQuest" and follow the installation instructions.

Making Dental Appointments

When you call the dentist to make an appointment, you should have these items ready:

- Pen or pencil
- Your child's Commonwealth of Virginia blue and white plastic ID or
- Your child's MCO member ID card
- A calendar

Tell the dentist's office that your child is a **Smiles For Children** member and that you would like to make an appointment to see the dentist. See which dates and times work best for you. Write down your child's appointment date and time on your calendar.

When the date of your child's appointment comes, just go to the dentist's office. It is that easy. If you have been going to a different dentist, please ask the old dentist to send your child's dental records to the new dentist.

It is very important to make sure that you go to your scheduled appointments. If you are not able to keep your child's appointment, call the dentist office as soon as possible to let them know you will not be coming. At that time, the

dentist can schedule another appointment for you to make sure that you or your children are getting the proper dental care.

Please remember to call your dentist if you cannot make it to your appointment. Dentists may no longer want to see you or your children in their office if you miss your appointments.

Show your child's blue and white ID card or your MCO ID card **each time you go to the dentist** so that your dentist can verify your child's current eligibility status. If you do not take the cards, you can be billed.

It is your responsibility to show your child's Identification Card to providers at the time you go for services and to be sure the provider accepts payment from *Smiles For Children*. Report the loss or theft of your Medicaid Identification Card to the local Department of Social Services, the FAMIS CPU or loss of your MCO card to your Managed Care Organization (MCO) right away.

What to Do in an Emergency

Your child can also see a ***Smiles For Children*** dentist for emergencies. You should ask your dentist how to contact him or her in an emergency. Your dentist may have a different telephone number to call in an emergency.

If you are away from home during an emergency, you may contact DentaQuest for help finding a participating dentist in the area. If you are not able to call DentaQuest, take your child to the hospital, if necessary. Remember to show your child's Member ID Card.
