DMAS will soon be implementing service authorization for Mental Health Crisis Intervention and Crisis Stabilization services. The individuals listed above have been selected to serve on a workgroup on the details of how service authorization should be implemented. (It is expected that there will be a retroactive authorization process, allowing providers to initiate crisis services prior to obtaining service authorization.)

Association members and CSBs are encouraged to funnel their thoughts to their association representative or through a workgroup member. Alternatively, comments may be sent to Emily McClellan at DMAS via email ([Emily.McClellan@dmas.virginia.gov](mailto:Emily.McClellan@dmas.virginia.gov)) or by phone (804) 225-4272.
