

Requirements Traceability Matrix Instructions

The Requirements Traceability Matrix (RTM) is used to document and track the project requirements from the proposal through the CMS Certification process.. The Contractor is responsible for maintaining the set of Baseline Requirements directly related to the configuration of the MES components. Additions, modifications, and deletions to these requirements post contract award shall be added and modified timely, with DMAS approval and a current version of the matrix shall be maintained at all times. The Contractor shall provide an initial RTM as part of its proposal per the instructions below. The RTM will be maintained in Excel format until or unless DMAS approves an alternate format.

Column	Instructions
Requirement ID	The unique identifier for the requirement as assigned by DMAS. This column shall not be modified by the Bidder.
Requirement	The statement of the requirement to which the Bidder must respond. This column shall not be modified by the Bidder.
Compliant?	The Bidder shall indicate "Y" (Yes) or "N" (No) as to whether their solution is compliant with the requirement.
Availability	The Contractor shall indicate one of the following:
	A = Functionality is currently operational
	B = Functionality is planned
	C = Functionality is not currently planned
Date	For Availability code "B" bidder shall provide the planned availability date
Proposal Mapping	The Bidder shall provide cross-reference to the location(s) of where compliance with each requirement is described in their proposal.

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-TECH-STND-001	All the artifacts developed as part of the proposed Solution shall be compliant with the CMS and HIPAA standards and requirements.				
PRSS-TECH-STND-002	The Solution shall use rules based, table driven modular, and reusable components.				
PRSS-TECH-STND-003	The Solution shall facilitate online, browser based web capabilities with no client component download(s) for all authorized end users including, but not limited to providers and members.				
PRSS-TECH-STND-004	The Solution shall support functionality to interface with multiple entities outside the MES for exchange of information.				
PRSS-TECH-STND-005	The Solution shall comply with all current and future HIPAA standard Transactions and Code Sets (TCS) in place or mandated by the Commonwealth and CMS.				
PRSS-TECH-STND-006	The Solution shall implement standard policies and practices to ensure the security and integrity of the information to be exchanged.				
PRSS-TECH-STND-007	The Solution shall provide notification to the ISS Contractor of all changes to application program interface (API) on a timely basis.				
PRSS-TECH-STND-008	The Solution shall provide standard and ad hoc reporting capabilities for all modules of the proposed solution which are accessed by Commonwealth end users and other stakeholders.				
PRSS-TECH-STND-009	The Solution shall meet the Federal reporting requirements and performance standards as defined by CMS and the CMS certification checklists.				
PRSS-TECH-STND-010	The Solution shall implement and support a reporting repository with Web based access by authorized end users, including the ability to extract data to be used with desktop applications.

Technology Standards Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-TECH-STND-011	The Solution shall provide interoperability between the modules of the proposed solution and Commonwealth imaging and document management systems. All Commonwealth documents and images on any media type received or disseminated shall be accessible, stored, and indexed on the Enterprise Content Management system.				
PRSS-TECH-STND-012	The Solution shall allow users to select among several format types (e.g., PDF, Microsoft Excel, Microsoft Word) for any outputs produced. The output media types shall be role based or by individual end user(s).				
PRSS-TECH-STND-013	The Solution shall implement relevant standards including, but not limited to NIEM, CAQH-CORE, HL7, and HIPAA for data interchange.				
PRSS-TECH-STND-014	The Solution shall provide single sign-on (SSO) capability using Commonwealth standards for login and authentication. The Contractor's system shall include an end user authentication process that permits the end user to enter one (1) name and password to access multiple applications. This process authenticates the user for those applications they have access rights to and eliminates the need for further prompts when switching between applications during a session.				
PRSS-TECH-STND-015	The Solution shall process all inbound and outbound files at a frequency as defined by the Commonwealth.				
PRSS-TECH-STND-016	The Solution shall support and monitor the processing of all transaction files and notify the Commonwealth of all transactions which have not been processed successfully.				
PRSS-TECH-STND-017	The Solution shall accept and apply interface data accurately 100% of the time.

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-TECH-STND-018	The Solution shall reconcile errors identified during the processing of any transaction file and reprocess partner transactions within the agreed upon SLA.				
PRSS-TECH-STND-019	The Solution shall comply with Commonwealth and Federal records management policies and retention schedules.				
PRSS-TECH-STND-020	The Solution shall ensure archived data is retrievable, formatted to match the original intake document, and shows the changes during processing.				
PRSS-TECH-STND-021	The Solution shall comply with all Commonwealth and Federal laws, grant requirements, rules, regulations, guidelines, policies, and procedures for destruction of records.				
PRSS-TECH-STND-022	The Solution shall retain all records for both paper and electronic claims as per the Commonwealth and Federal guidelines.				
PRSS-TECH-STND-023	The Solution shall comply with and align with Commonwealth Technology Standards.				
PRSS-TECH-STND-024	The Solution for proposed interfaces to Commonwealth systems shall comply with or have approved exceptions to all applicable Commonwealth Data Standards as found at: http://www.vita.virginia.gov/oversight/default.aspx?id=10344 If not, please explain.

Rules Engine Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-RULE-EGN-001	The Contractor's Rules Engine shall meet MITA 3.0 standards by using COTS Business Rules Engine products using BPMN and BPEL methodologies.				
PRSS-RULE-EGN-002	The Contractor's Rules Engine shall allow integration with Identity Access Management products for several elevated user levels for business rules approvals.				
PRSS-RULE-EGN-003	The Contractor's provided workflow shall automate details for any rules creation/modification/deletion and scheduled auto deployment shall be explained.				
PRSS-RULE-EGN-004	The Contractor's Rules Engine shall provide a testing environment with dashboard drill downs using past production data to show how functionality/end result will change by the rule changes. This can be displayed in the dashboard by a graphical and columnar view for easy impact assessment by the business user.				
PRSS-RULE-EGN-005	The Contractor shall provide a Rules Engine Business Dictionary which includes data elements, definition, data size, meaning, description and its usage.				
PRSS-RULE-EGN-006	The Contractor's Rules Engine shall allow changes to be made to the valid values without bringing down the rules engine.				
PRSS-RULE-EGN-007	The Contractor's Rules Engine shall have tracking mechanisms to identify which rules are executed for the particular transactions.				
PRSS-RULE-EGN-008	The Contractor's Rules Engine shall be able to produce a report on rules passed or failed for all transactions.				
PRSS-RULE-EGN-009	The Contractor's Rules Engine shall send alerts to the appropriate resource if there is any issue in the rules engine.				
PRSS-RULE-EGN-010	The Contractor's Rules Engine shall allow logging to be turned ON or OFF.				
PRSS-RULE-EGN-011	The Contractor's Rules Engine shall provide a debugging tool to debug the rules execution.

Rules Engine Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-RULE-EGN-012	The Contractor's Rules Engine shall allow rules to run sequentially and in parallel.				
PRSS-RULE-EGN-013	The Contractor's Rules Engine shall allow Individual rules testing features available.				
PRSS-RULE-EGN-014	The Contractor's Rules Engine shall include test data creation tools.				
PRSS-RULE-EGN-015	The Contractor's Rules Engine shall allow users to map JSON or XML documents as input data elements.				
PRSS-RULE-EGN-016	The Contractor's Rules Engine shall be easily accessed through Java or web services.				
PRSS-RULE-EGN-017	The Contractor's Rules Engine shall process high volume transactions and shall be scalable.				
PRSS-RULE-EGN-018	The Contractor's Rules Engine shall be able to support NoSQL or MongoDB.				
PRSS-RULE-EGN-019	Rules Editor shall allow the subject matter experts or technical resource to write the rules in the natural language.				
PRSS-RULE-EGN-020	The Contractor shall supply a dashboard to monitor the rules execution and its performance and statistics.				
PRSS-RULE-EGN-021	The Contractor's Rules administration process shall control user access, modify and execute the rules.

Disaster Recovery Requirements					
Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-NFR-DR-001	The Contractor shall prepare and submit for Department approval a comprehensive Disaster Recovery Plan due to the Department on an annual basis and after a substantive change to the solution that would require revision to the DR Plan.				
PRSS-NFR-DR-002	The Contractor shall provide back-up processing capability at a remote site from the primary site such that normal processing can continue in the event of a disaster or major hardware problem at the primary site. All operations at the remote back-up site will meet established contractual performance and SLA requirements.				
PRSS-NFR-DR-003	The Contractor shall coordinate with and demonstrate to the Department the Contractor's disaster recovery capabilities in accordance with SLAs. The Contractor will include recovery of any new functionality implemented during the previous year.				
PRSS-NFR-DR-004	The Contractor shall, in the event of a catastrophic (i.e. possibility of crimes, terrorism, hackers, intentional torts, human error, virus, etc.) or natural disaster, resume normal operational business functions at the earliest possible time in accordance with specified SLAs and according to the Department-approved disaster recovery plan.				
PRSS-NFR-DR-005	The Contractor shall, in the event of other disasters caused by such things as criminal acts, human error, malfunctioning equipment, computer viruses, or electrical supply, resume normal business functioning at the earliest possible time, in accordance with SLAs.				
PRSS-NFR-DR-006	The Contractor shall plan and coordinate disaster recovery activities with Department-approved business partners.

Disaster Recovery Requirements					
Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-NFR-DR-007	The Contractor shall coordinate with and demonstrate to the Department the Business Continuity and Contingency Plan every calendar year in conjunction with the annual disaster recovery demonstration.				
PRSS-NFR-DR-008	The Contractor shall leverage and use the LAST environment as the Disaster Recovery. The extent to which the primary site cannot be restored in accordance with SLAs, may determine that the recovery site be considered the new primary site.				
PRSS-NFR-DR-009	The Contractor shall, upon notification by DMAS that the primary production site is deemed inoperable, execute the Disaster Recovery Plan.				
PRSS-NFR-DR-010	The Contractor shall provide back-up network connectivity at both the primary Production and Disaster Recovery sites with the capacity to support the solution and its components.				
PRSS-NFR-DR-011	The Contractor shall ensure that the DRP is available to Commonwealth and Federal auditors at all times.				
PRSS-NFR-DR-012	The Contractor shall establish, in cooperation with DMAS a hierarchy of critical services and infrastructure to determine the order that services will be restored.				
PRSS-NFR-DR-013	The Contractor shall maintain a DRP that provides for the recovery of critical services in accordance with SLAs upon the discovery of the service disruption, the declaration of a disaster or Production site becoming unsafe or inoperable.				
PRSS-NFR-DR-014	The Contractor shall maintain or otherwise arrange for a disaster recovery site for its system operations in the event of a disaster that renders the Production site inoperable.

Provider Call Center Requirements					
Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-PCC-001	The Solution shall provide a call center to assist providers with enrollment, claims, technical, and other support issues.				
PRSS-PCC-002	The Solution shall provide the ability to track provider call center inquiries from receipt to resolution.				
PRSS-PCC-003	The Solution shall provide the capability for DMAS to easily access provider call center logs, and call statistics.				
PRSS-PCC-004	The Contractor's Provider Call Center shall utilize all applicable existing DMAS provider help desk phone numbers. The Contractor agrees to relinquish ownership of the toll-free numbers upon actual transfer back to DMAS or DMAS assigned agent, at which time the Department shall take title to these telephone numbers.				
PRSS-PCC-005	The Contractor shall establish and maintain translation services for providers calling the help desk. The Contractor shall ensure that the communication and language needs are addressed. The provider cannot be charged a fee for translator or interpreter services.				
PRSS-PCC-006	The Contractor shall provide Telecommunications Device for the Deaf (TDD) services.				
PRSS-PCC-007	The Contractor shall have the ability to functionally and operationally store, access and convert historical provider call data or have a solution to access the historical data through a call tracking system.

Manage Provider Appeals Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-PM-APPL-003	The Solution shall provide the capability to open an individual case file, assign a unique case number, and automatically import from the e-filed appeal request in response to an e-filed appeal request. User override is required. The opening of cases shall occur in real-time				
PRSS-PM-APPL-004	The Solution shall provide the capability to open an individual case file and automatically import information for appeal requests that are received by any means other than electronic (such as faxes, emails, and paper documents) using OCR or an equivalent. User assistance and override capabilities are required. The opening of cases shall occur in real-time.				
PRSS-PM-APPL-005	The Solution shall provide the capability to store and allow Appeals Division management updates to a list of Informal Appeals Agents (IAA) and Formal Hearing Representatives (FHR) and the level of complexity of appeals they handle, to automatically assign appeals to IAAs or FHRs based on issue, complexity, and a prescribed rotation, and to allow for manual reassignments.				
PRSS-PM-APPL-006	The Solution shall provide the capability to auto-populate certain appeal-related fields during user input (e.g., address, received date, date and type of last action taken, appeal type and subtype if applicable, regulatory deadlines, etc.). User override capability is required.				
PRSS-PM-APPL-007	The Solution shall provide the capability to compare the information auto-imported from MES (claims, service authorizations, members, providers, etc.) to the information provided by the provider/representative for accuracy, and alert the user if the information differs. An alert shall occur in real-time

Manage Provider Appeals Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-PM-APPL-017	The Solution shall provide the capability to date and time stamp each appeal request on the date and time it is received with a stamp that becomes a part of the case record. It shall be able to differentiate between a provider appeals and a client appeal and appropriately date-stamp, assign a case number, and route it accordingly. User override capability is required.				
PRSS-PM-APPL-018	The Solution shall provide the capability to find and re-open the appropriate informal appeal for formal appeal requests.				
PRSS-PM-APPL-019	The Solution shall provide the capability to permit Appeals Division management to grant read-only access to designated staff within DMAS but outside of the Appeals Division (Fiscal, Program Integrity, and other Divisions or individuals) so that these individuals can see all current provider cases in every stage. Access that is granted shall become effective in real-time.				
PRSS-PM-APPL-020	The Solution shall provide a dashboard for each user that has the ability to easily access information relevant for each appeal request, shall include a notes section for maintaining important communications and other information, and shall permit the assigned attorney and other staff as determined by management access to the history of the appeals process.				
PRSS-PM-APPL-021	The Solution shall provide the capability for creating a library where templates (letters, emails, decisions) can be stored, used, saved, imported, user modified and printed/sent (whether manual or automated print/send initiated).				
PRSS-PM-APPL-022	The Solution shall provide the capability for editing generated documents, including formatting, fonts, and bold/underlines.

Manage Provider Appeals Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
PRSS-PM-APPL-023	The Solution shall provide the capability for printing generated documents using designated paper trays (letterhead, non-letterhead, and envelopes) and for selecting different printers.				
PRSS-PM-APPL-024	The Solution shall provide the capability for electronic signatures on letters, decisions, and other documents.				
PRSS-PM-APPL-025	The Solution shall provide the capability for calculating deadlines that is customizable to permit the inclusion of holidays, Agency closures, and weekends, in accordance with established rules and requirements. User override capability is required. Changes or additions to existing Agency closures shall result in the System making automatic real-time updates to existing case deadlines.				
PRSS-PM-APPL-026	The Solution shall provide the capability for appeals related processing to seamlessly interface with VaCMS, DMAS contractors (such as ASOs, auditors, MCOs, etc.), and others.				
PRSS-PM-APPL-027	The Solution shall provide the capability to check in real-time for duplicate appeal filings based on established criteria (same provider, same member, same dates of service, same services) and permit manual review and override as necessary. <ul style="list-style-type: none"> ▪ Solution shall not automatically delete duplicates ▪ Provide user prompt for review and possible deletion. 				
PRSS-PM-APPL-028	The Solution shall provide an audit trail of appeals activity at the field level that tracks input and changes by user, date, and time.				
PRSS-PM-APPL-029	The Solution shall provide the capability to generate appeals related reports (standard, ad hoc, monthly legal aid, other).
